PARV GHAI
SOFTWARE ENGINEER | JAVA DEVELOPER

Cloud Engineer with 1 year of internship experience in cloud infrastructure and operations. Skilled in designing, deploying, and managing scalable cloud solutions with a strong foundation in system design, microservices architecture, and distributed systems best practices.

Proficient in Java, Python, and microservices frameworks such as Spring-Boot and Drop-wizard. Experienced in containerization and orchestration technologies like Kubernetes and Docker, ensuring efficient deployment and management of applications.

Well-versed in Windows and Linux environments, providing operational support, performing system upgrades, and troubleshooting complex technical issues. Adept at collaborating with cross-functional teams and effectively communicating technical concepts.

Passionate about optimizing cloud architectures, enhancing system efficiency, and driving innovation in distributed computing.

IT/COMPUTERS-SOFTWARE: ELEVE   10 JUN - 25 JUN2024

Key Skill: Team Collaboration, Eager to Learn, Basic Software Development of Lifecycle Knowledge

Interned with the Development Team, actively contributing to projects and tasks with diligence and efficiency.

EDUCATION

AJEENKYA DY PATIL UNIVERSITY -ADYPUSOE   2022-2025

Bachelor Of Computer Application. - Cloud Technology | CGPA: 8 / 10

MAHAESHWARI PUBLIC SCHOOL (10,10+2)   2022

12th | CBSE | CGPA: 8 / 10

10th | CBSE | CGPA: 8 / 10

ACTIVITIES

MAHESHWARI PUBLIC SCHOOL (10+2,10)   2022

SENIOR SECONDARY HEAD BOY (2022)

What I have acquired:

Leadership, Communication, Event Organization, Decision Making Collaboration, Interpersonal Skills

JUNIOR PREFECT (2017)

What I have acquired:

Team management, Event organization, Interpersonal Skills, Collaborative skills

Hosted Inter-State Debate Competition (2017)

What I have acquired:

Event Management, Time Management, communicating with different renowned schools

AJEENKYA DY PATIL UNIVERSITY-ADYPYSOE   2022-2025

Head of Cultural Committee

Help in organizing several co-curricular events (ANVESHAN, NEW YEAR EVE,ADYPY ABLAZE)

PROJECT

I have also independently developed several projects, including:

- **Dynamic CV Generator**: A fully functional and responsive website built using Python, showcasing advanced technical skills and problem-solving abilities.
- **Music Media Player**: A sleek and interactive web application designed with HTML, CSS, and JavaScript, offering a fully responsive user interface.
- **Testing Malware**: Created and analysed malware testing frameworks to enhance cybersecurity awareness and threat mitigation. Python based application.
- **AI Chatbot:** Developed an AI-powered chatbot with the ability to access local file systems, improving automation and user interaction using LLM and python interface to integrate the local files accessibility.

These projects reflect my passion for innovation and ability to deliver high-quality solutions.
